G.O. No. 133 Press ~~Mis.~~

269-70

Dated 16 - 1 1869.

Not to be folded or roughly handled

Proceedings of the Madras Government, Public Works Department,
16th January 1869.

No. 269. Read the following letter from the Superintending Engineer, 4th Division, to the Secretary to Government, Public Works Department, dated Madras, 4th January 1869, No. 4,725:—

1 Petition.

1. In returning the petition which accompanied the Under Secretary's endorsement, No. 2,363, dated 10th November 1868, from Gopal Iyengar and other Ryots of Doosimamandoor and other villages in the Arcot talook, North Arcot District, regarding the late freshes of the Palar not having reached their tank, I have the honor to report that Lieutenant Brockman, the Assistant Engineer, states that the cause was that the channel leading to the Doosi tank from the Tenampet Ivady tangle and Tripanamoor tanks was much silted up.

2. The Tenampet tank, however, being now three-fourths full, the Assistant Engineer intimates having given instructions, that in the case of another fresh down the Palar, the water shall be allowed to pass to the Doosi tank through the Otary and Vengalathoor tanks.

No. 270. ORDER THEREON, 16th January 1869, No. 133.

IRRIGATION, No. 23.

The Superintending Engineer of the 4th Division will report the circumstances under which the channel leading to the Doosi tank from the Tenampet Ivady tangle and the Tripanamoor tanks, was allowed to remain so silted up as to have prevented the Doosi tank receiving a proper supply of water.
